Advanced CSS

Coding Boot Camp

Module 02

Today's Goals

By the end of today's class you should be able to:

01   Create and explain the purpose of a wireframe.

02   Use CSS selectors to reference HTML elements in different ways.

03   Use CSS variables to keep their code clean.

04   Use advanced CSS styling for an enhanced UI.

Wireframes

What makes an effective wireframe

Information Design:
How we place and present information
to our users.

Navigation Design:
How the user moves throughout the site
and how pages relate to each other.

Interface Design:
How the user interacts with the elements
on the page, with a focus on functionality.
